

**Working for Oxfirst is both challenging and rewarding. We are looking for talented and enthusiastic people to join our team and help move innovation forward.**

### **Economic Analyst**

Full time, as well as part time basis is possible. We also accept applications from virtual team members who are able to contribute on an ad hoc basis.

Essential Job Duties and Responsibilities:

- Produce high quality research, with a view to provide transformative insights for clients.
- Develop analytical models by using creative problem solving skills and mathematical and/or statistical modelling techniques; prepare both quantitative and qualitative studies.
- Research, evaluate, and analyse innovation related data by computer using software applications. Develop statistical data resources to assist in proactive and targeted analysis and identification of emerging innovation trends.

Skills Required

- Self-starter, able to work independently.
- Strong numerical skills & in depth knowledge of econometrics
- Positive 'Can do' attitude
- Analytical thinking, problem solving skills and ability to apply those skills in constructing models, collecting data to populate the models and produce model results.

Ability to:

- Write original material, edit, proofread and finalize written material
- Gather and report numerical data and produce statistical reports.
- Work completely and accurately under time constraints and deadlines.
- Report results of analysis in writing

Education:

- Any education that you see fit for the job
- Exceptional academic and extra-curricular track record

Please send your C.V., a Cover letter and a sample of your work to [recruiting@oxfirst.com](mailto:recruiting@oxfirst.com). Applications will be evaluated on a first come, first take basis.
