

Working for Oxfirst is both challenging and rewarding. We are looking for talented and enthusiastic people to join our team and help move innovation forward.

Innovation Analyst

Full time, as well as part time basis is possible. We also accept applications from virtual team members who are able to contribute on an ad hoc basis.

Essential Job Duties and Responsibilities:

- Research and analyse complex information; identify and interpret qualitative insights with a view of producing high end commercially oriented studies
- Review a variety of different sources of information for the purpose of finding innovation patterns. Relate those patterns to current business practice
- Compile information, analyse findings, make interpretations, and write comprehensive studies based on case studies and interviews; use these findings to identify information gaps and future needs of clients.

Ability to:

- Write original material, edit, proofread and finalize written material
- Liaise with people in view of grasping cutting edge insights
- Work completely and accurately under time constraints and deadlines
- Report results of analysis in writing

Skills Required

- People skills
- Self-starter, able to work independently
- Strong writing skills
- Positive 'Can do' attitude
- Analytical thinking, problem solving skills and ability to apply those skills for cutting edge insights

Education:

- Any education that you see fit for the job
- Exceptional academic and extra-curricular track record

Please send your C.V. a Cover letter and a sample of your work to recruiting@oxfirst.com. Applications will be evaluated on a first come, first take basis.
